## AIMS AND SCOPE

Psychiatry and Clinical Psychopharmacology (formerly *Bulletin of Clinical Psychopharmacology* 1996-2016) is an international, scientific, open access, online-only periodical published in accordance with independent, unbiased, and double-blinded peer-review principles. The journal is published quarterly in March, June, September, and December. The publication language of the journal is American English.

The aim of the journal is to bridge the gap between basic and clinical application by publishing high quality research in psychiatry and clinical psychopharmacology. The scope of the journal includes but not limited to psychiatry, child and adolescent psychiatry, psychology, neurology, pharmacology, molecular biology, genetics, physiology, neurochemistry, neuroimaging, artificial intelligence, machine learning, neuronal networks, and related sciences. Psychiatry and Clinical Psychopharmacology accepts research articles, reviews, case reports, letters to the editors, editorials, and short communications/brief reports.

The target audience of the journal includes specialists, residents, and scientists in psychiatry, psychology, neurology, pharmacology, molecular biology, genetics, physiology, neurochemistry, and related disciplines.

Psychiatry and Clinical Psychopharmacology is currently indexed in Science Citation Index Expanded, Scopus, Embase, HINARI, Proquest: Proquest Psychology Journals, Proquest Health&Medical Complete, PsychINFO, PsycSCAN: Psychopharmacology, EBSCO, and Chemical Abstracts (CAS).

The editorial and publication processes of the journal are shaped in accordance with the guidelines of the International Committee of Medical Journal Editors (ICMJE), World Association of Medical Editors (WAME), Council of Science Editors (CSE), Committee on Publication Ethics (COPE), European Association of Science Editors (EASE), and National Information Standards Organization (NISO). The journal is in conformity with the Principles of Transparency and Best Practice in Scholarly Publishing ([doaj.org/bestpractice](http://doaj.org/bestpractice)).

## Publication Fee Policy

Authors should pay a one-time article processing charge (APC) to cover the costs of peer review administration and management, production of articles in PDF and to other publishing functions. There are no surcharges based on the length of an article, figures or supplementary data. In order to cover publication costs, the standard APC for Psychiatry and Clinical Psychopharmacology is \$590 (including taxes).

Please note that all submissions are evaluated by the Editorial Board and external reviewers in terms of scientific quality and ethical standards. APC payments have no effect on the outcome of the article's evaluation and/or publication priority.
