About the Psychiatry and Clinical Psychopharmacology

Psychiatry and Clinical Psychopharmacology is a peer reviewed, open access, online-only journal.

Psychiatry and Clinical Psychopharmacology is a quarterly journal that is published in English in March, June, September, and December. Psychiatry and Clinical Psychopharmacology is supported by the Turkish Association for Psychopharmacology.

Journal History

As of 2016, the journal has changed its title to Psychiatry and Clinical Psychopharmacology.

Current Title (2017 - ...)

Psychiatry and Clinical Psychopharmacology

EISSN: 2475-0581

Previous Title (1990-2017)

Klinik Psikofarmakoloji Bülteni – Bulletin of Clinical Psychopharmacology

ISSN: 1302-9657

EISSN: 1302-9657

Abstracting and Indexing

Psychiatry and Clinical Psychopharmacology is covered in the following abstracting and indexing databases;

- PubMed Central
- Science Citation Index Expanded
- Scopus
- DOAJ
- Embase
- Gale
- CNKI
- HINARI
- Proquest: Proquest Psychology Journals
- Proquest Health&Medical Complete
- EBSCO
- Chemical Abstracts (CAS)
- TUBITAK ULAKBIM TR Index

All content published in the journal is permanently archived in Portico.

Aims, Scope, and Audience

Psychiatry and Clinical Psychopharmacology aims to publish studies of the highest scientific and clinical value, and encourages the submission of high-quality research that advances the understanding scientific fields such as psychiatry, child and adolescent psychiatry, neuroscience, psychology, neurology, pharmacology, molecular biology, genetics, physiology, neurochemistry, neuroimaging, artificial intelligence, machine learning, neuronal networks, and related sciences.

Psychiatry and Clinical Psychopharmacology covers a wide range of topics related to psychiatry and clinical psychopharmacology as well as forming a scientific forum by producing quality debate on various disciplines. The journal is interested in publishing original research that addresses important clinical questions and advances the understanding and treatment of these conditions. This may include studies on psychiatry, child and adolescent psychiatry, psychology, neurology, pharmacology, molecular biology, genetics, physiology, neurochemistry, neuroimaging, artificial intelligence, machine learning, neuronal networks, and related sciences.

Psychiatry and Clinical Psychopharmacology publishes original research, reviews, case reports, letters to the editors, editorials, and short communications/brief reports within its scope. Conference proceedings may also be considered for publication.

The target audience of the journal includes specialists, residents, and scientists in psychiatry, psychology, neurology, neuroscience, pharmacology, molecular biology, genetics, physiology, neurochemistry, and related disciplines.

Open Access Policy

Psychiatry and Clinical Psychopharmacology is an open access publication.

Starting on March 2021, all content published in the journal is licensed under the Creative Commons Attribution-NonCommercial (CC BY-NC) 4.0 International License which allows third parties to read and share the material immediately upon publication for only non-commercial purposes by giving the appropriate credit to the original work. Adaptation and modification of the material is not permitted.

The content published before March 2021 was licensed under a traditional copyright, but the archive is still available for free access.

All published content is available online, free of charge at <https://psychiatry-psychopharmacology.com/>.

Authors retain unrestricted copyrights and publishing rights in Psychiatry and Clinical Psychopharmacology.

When using previously published content, including figures, tables, or any other material in both print and electronic formats, authors must obtain permission from the copyright holder. Legal, financial and criminal liabilities in this regard belong to the author(s).

Copyright Policy

A Copyright Agreement and Acknowledgement of Authorship form should be submitted with all manuscripts. By signing this form, authors agree that the article, if accepted for publication by the Psychiatry and Clinical Psychopharmacology, will be licensed under a Creative Commons Attribution-Non Commercial 4.0 International License (CC BY-NC 4.0) which allows third parties to read and share the material immediately upon publication for only non-commercial purposes by giving the appropriate credit to the original work. Adaptation and modification of the material is not permitted.

When using previously published content, including figures, tables, or any other material in both print and electronic formats, authors must obtain permission from the copyright holder. Legal, financial and criminal liabilities in this regard belong to the author(s).

Authors retain unrestricted copyrights and publishing rights in Psychiatry and Clinical Psychopharmacology.

Publication Fee Policy

Psychiatry and Clinical Psychopharmacology is sustained through article processing charges (APC).

Effective November 17, 2023, the APC for Psychiatry and Clinical Psychopharmacology is adjusted to 1440 USD (VAT included) + 3% Transaction Fee (44 USD).

There are no additional fees or surcharges associated with the evaluation or publication process beyond the APC. For manuscripts submitted and accepted before November 17, 2023, the article processing charge will remain at 600 USD.

Authors must transparently disclose any financial support received for the payment of the article processing charge.

Disclaimer

The statements or opinions expressed in the manuscripts published in the journal reflect the views of the author(s) and not the views of the editors, editorial board, and/or publisher. The editors, editorial board, and publisher are not responsible for the content of the manuscripts and do not necessarily endorse the views expressed in them. It is the responsibility of the authors to ensure that their work is accurate and well-researched, and the views expressed in their manuscripts are their own. The editors, editorial board, and publisher simply provide a platform for the authors to share their work with the scientific community.
